

# Immigration Exams

## REQUIREMENTS

Valid Picture Government ID

(Driver's license or Passport, can not be expired)

I-693 Paperwork (download at [uscis.gov](http://uscis.gov))

Official Shot Record

*Without proof of immunizations, you must receive all required vaccines*

Immunization requirements are as follows:

**Please note that we can NOT place your Tuberculosis (TB) skin test within 30 days of any live vaccines such as MMR, Varicella or a TB skin test. If you have had any of these vaccines or had a TB skin test recently you must wait 30 days to have your exam. The TB skin test MUST be placed & read by the civil surgeon doing the immigration physical. If you have had a positive TB skin test in the past we must have documented proof including the date it was placed, read & the size of reaction. Without this documentation we must place the TB skin test again.**

### **If the applicant is between the ages of birth-17**

The child must be up to date based on our immunization standards. We will not be able to let you know what the child requires until you're in our office & we have the shot record in front of us to review.

### **If the applicant is between the ages of 18-64**

Tdap vaccine

Varicella vaccine or history of varicella illness (chicken pox)

MMR (if born after 1957)

### **If the applicant is 65 years of age & above you need**

Td

Pneumococcal vaccine

Varicella vaccine or history of varicella illness (chicken pox)

During flu season December 1st to March 31st **ALL** applicants 6 months old to 18 years old and 50 years old and above also are required to have an influenza vaccine during that season.

**PPD test (TB skin test) : REQUIRED** for applicants **2 years of age and above**

**Syphilis test:** Required for applicants ages 15 and above.

**Pregnant women** – can't receive certain live vaccines and they should bring a letter from their OB/GYN stating their pregnancy status.
